

Books on the Marginal Revolution in Economics

and Related Intellectual Traditions — A Curated Bibliography

This bibliography covers the Marginal Revolution in economics and related themes including neoclassical economics, Austrian economics, subjective value theory, and the history of economic thought. Entries marked *new* are newly added titles.

Title	Author(s)	Focus / Contribution
The Marginal Revolution in Economics	<i>R.D. Collison Black, A.W. Coats & C.D.W. Goodwin</i>	Classic edited volume devoted entirely to the marginal revolution.
Marginal Revolution in Economics: A Reappraisal	<i>Toru Maruyama</i>	Modern reassessment marking the 150th anniversary.
The Wealth of Ideas	<i>Alessandro Roncaglia</i>	Excellent discussion of the marginalist revolution and subsequent developments.
History of Economic Analysis	<i>Joseph Schumpeter</i>	One of the deepest intellectual histories of the rise of marginalism.
Economics Evolving	<i>Agnar Sandmo</i>	Accessible history with strong treatment of marginalism.
A History of Economic Thought	<i>Isaak Illich Rubin</i>	Marxist-oriented history of the transition to marginalism.
From Political Economy to Economics	<i>Milonakis & Ben Fine</i>	Methodological transformation into neoclassical economics.
An Austrian Perspective on the History of Economic Thought	<i>Murray Rothbard</i>	Austrian-school interpretation of the development of economic ideas.
The Marginal Revolutionaries	<i>Janek Wasserman</i>	How Austrian economists shaped modern economic debate.
Principles of Economics (1871)	<i>Carl Menger</i>	Foundational marginalist text; origin of the Austrian school.
The Theory of Political Economy	<i>W.S. Jevons</i>	One of the original texts of marginal utility theory.
Elements of Pure Economics	<i>Léon Walras</i>	Formal mathematical articulation of marginalist economics.
Principles of Economics	<i>Alfred Marshall</i>	Integrated marginalism into mainstream economics.
Capital and Interest	<i>Eugen Böhm-Bawerk</i>	Advanced Austrian treatment of capital and marginal utility.
